

# EDWARD COLMENAREZ

Fullstack web developer

## ABOUT ME

21 years old javascript programmer with frontend and backend skills, systems engineering student and a self-taught programmer

## STUDIES

- College Santiago Mariño - engineering career in systems 5th semester
- Udemy - Backend course by Fernando Herrera
- Platzi - Backend with Node.js course: REST API with Express.js
- Platzi - JavaScript Practical Course
- Platzi - React.js Practical Course

## SKILLS

CSS layout

API development

Databases creation

socket integration

Request handling

English

## PROFESSIONAL GOALS

Develop my skills as a programmer through different challenges, testing what I have already learned as a result of the creation of different projects and improve them.

Work as a team to achieve the proposed objectives.

Get experience for can be ready to future projects.

## PROJECTS CREATED

Jobber: Platform that helps find job offers. Visit the page here <https://jobberr.herokuapp.com/>
